Conserve Switch™ Surge Protector with Remote Switch

Save Energy with a Single Click

Control power to your whole computer system

The Belkin Conserve Surge Protector with Remote Switch lets you control power to your whole computer system with a single click. The included wireless remote makes it easy to shut off power (including standby power), to up to six devices at once, such as your computer, monitor, printer, external hard drives, speakers and more. Additionally, two Always-On Sockets stay on for devices that need continuous power, like your router or cordless phone. Place the remote on a desk or shelf, or use the included wall mount.

Benefits

Ease of Use
Remote-Switched Sockets let you eliminate standby power to up to 6 sockets with one click.

Protect Sensitive Electronics
1800 joules of surge protection ensure electronics are safe from power spikes or surges.

Saves Space
Slim design and cable-management clip to keep cords neat.

Wireless
Remote switch works up to 20 metres away and is wall-mountable.
